Supplement Questions Checklist

A reusable observation tool. Keep notes brief and take persistent concerns to your clinician.

- [ ] What is the exact ingredient, form and quantity per serving?
- [ ] Why am I considering it? Is there evidence relevant to my situation?
- [ ] Could it interact with my medicines or existing supplements?
- [ ] Is it appropriate for my age, pregnancy or breastfeeding status?
- [ ] Who makes it, and is there genuine independent quality testing?
- [ ] What risks, side effects or stop-use signs should I know?
- [ ] How will I review whether I still need it with my pharmacist or clinician?
